K2 STONE - your NATURAL choice

K2 Stone is one of the largest producers and distributors of natural stone products for the building industry in Western North America. We specialize in thin stone veneers, full bed masonry stone, cap stones, flag stones, hearths, mantels, landscape stone as well as a variety of custom products. We employ a fully vertically integrated business model which ensures unique products at competitive prices and outstanding service to our customers.

OCEAN PEARL QUARRY ON VANCOUVER ISLAND BC

PERMA GOLD QUARRY IN MONTANA

As both the quarry and distributor, K2 Stone is able to uphold industry leading quality standards, and provide an unmatched level of customization. We have 6 quarries and 2 production facilities. Our distribution facilities stock a wide range of stone products to ensure we can serve you better. We strive to support the communities where we live, work and operate in an environmentally responsible manner.

PERMA GOLD QUARRY

WHAT IS THIN STONE?

K2's thin stone is real stone, cut to about 1 inch thick, making it light enough to be installed as an adhered veneer. It offers all the benefits that have made artificial rock so popular, while retaining the beauty and durability of real stone. Thin stone does not require special mechanical fastening or additional work to the foundation. This lightweight product also costs less to transport and is easier to install when compared to traditional masonry stone. All of K2 Stone's thin veneers are offered with corners made to match.

BENEFITS OF REAL THIN STONE

1. Uncompromising beauty
2. Unmatched by imitation
3. No discoloration due to fading
4. Safe to pressure wash
5. No artificial additives
6. Good for Interior and Exterior
7. No efflorescence
8. LEED and Built Green points
9. Adds value to your property
10. No V.O.C.'s

LANDSCAPE PRODUCTS

OCEAN PEARL COBBLES

OCEAN PEARL COBBLES

Available in 8x8", 6x8", and 4x8" configurations, Ocean Pearl full bed cobbles can be sand set to recreate an old world look. They are offered in two thicknesses, 2.5" for sand set applications and 1" thick for mortared applications. Ocean Pearl cobbles are premium pavers that embody both durability and beauty.

FLAGSTONE

K2 Stone offers two varieties of flag stone: Ocean Pearl Slate and Autumn Flame Argillite. Flagstone is available in multiple thicknesses and varied size configurations. It can be installed in either a sand or mortar bed, depending on the application and desired appearance. Flagstone makes an excellent ground cover.

Industry Terms:

"Stand up Flagstone" – Large format flagstone often called "Select" which must be shipped standing up because pieces are too large to lay down on a pallet without protruding past the edges.

"Patio" or "Lay down" flagstone is small enough to fit on a pallet, as the name suggests.

AUTUMN FLAME FLAGSTONE

OCEAN PEARL FLAGSTONE

AUTUMN GOLD STAIRS

Autumn Gold Stairs offer exceptionally consistent tread surfaces without the need for any cuts. These stairs have brown and gold coloring that match well with wood and provide an excellent hardscape accent. Large slabs also available.

AUTUMN GOLD STAIRS

8" CUT WALLSTONE STAIRS

Cut Wallstone Stair treads are the most unique in the industry. With exact rise heights and a naturally non slip tread. 8" cut wallstone stairs blend their natural look with a safe surface.

OCEAN PEARL 8" CUT WALLSTONE STAIRS

OCEAN PEARL STAIRS

The most natural, rustic looking stairs available. Ocean Pearl Natural Stairs are composed of slate, making them slip resistant. The color blends exactly with the rest of the Ocean Pearl line. Large slabs also available.
